

### House Competition Overview:

Since West Hatch High School has adopted the House system we have tried as much as possible to incorporate as many different competitions into the School year that help to foster teamwork and enjoyment and allow different students to shine in different areas of the School.

We have always aimed to have at least one competition run per half term and as you will see in the list below we have surpassed that by a long way. Staff and departments have been incredibly innovative and enthusiastic in creating and running these competitions and allowing the students to reap the benefits they bring.

We have for a number of years held a West Hatch Bake Off competition which has been a huge success and has allowed children and their families to create amazing bakes and have them judged and ultimately win the West Hatch Bake Off.

We will keep running competitions throughout the School year and every year we manage to create some new events that allow students to further demonstrate their talents and skills and foster their house spirit.

House competitions between 2013 and now:
